MEDICAL GAS EQUIPMENT

Oxygen Demand Valve

- **Extremely strong**

- **Low patient effort**

- **Utilises Generic Filter Systems**

- **7 Year Warranty**

- **5 Year Service Interval**

Excellent performance and robustness, coupled with practical features to avoid cross contamination and provide a positive patient experience. The Oxygen Demand Valve is designed for use with 100% O2 and meets the technical performance requirements of BS4272-2.

Can be supplied with a dedicated pressure regulator or with any international Medical O2 connector to use with your own gas cylinder or wall supply.

SPECIFICATION

Intended Gas: .... O2 (Oxygen)

Supply pressure: .... 2.8 bar to 6.0 bar (280 kPa to 600 kPa)

Peak flow: .... > 200 lpm

Inlet connections: .... Schrader (BS 5682:2015) and other
 international connections

Hose Length: .... 2m to 5m

Outlet (Patient) Connection: .... 22 mm male conical to ISO 5356-1:2015

Exhaled Gas Scavenging System
Connection (Via adapter): .... 30 mm male to ISO 5356-1:2015

Intended life: .... 10 years

Service interval: .... 5 years

Warranty period: .... 7 years* (excluding the hose)
