- 710-0101-22
- 674-0047-00
- 673-9006-00
- 676-0001-00
- 674-0107-00
- 680-0001-10

The Oxygen Therapy System (excluding Cylinder) can be tailored to your specifications, contact a member of our sales team for more information.

APPROVAL:
IMO | MFAG

The Bedside Medical Oxygen System:

In the IMO Bedside solution, the oxygen cylinder is placed between beds, mounted against the bulkhead with the cylinder rack. The regulator with a fixed flow of 50L / min is mounted on the top of the cylinder and the flow selector is mounted on the bulkhead. The double oxygen outlet is fixed to the wall and the hose is connected to the regulator. Two flow selectors, with connections, are placed in the double oxygen wall outlet, which enables the oxygen flow to be regulated between 0-15L/min. A humidifier is connected to each flow selector and this has a disposable oxygen therapy mask attached to it.
